Professional Profile

Senior Graphic Designer with a strategic and concept-driven approach to visual communication, brand identity, and creative development. Skilled at translating business objectives into compelling visual concepts that balance creativity, consistency, and brand positioning. Experienced in developing cohesive visual systems, leading creative execution, and ensuring design quality across digital and print media. Combines a strong design sensibility with a deep understanding of marketing principles, audience engagement, and the role of visual storytelling in building impactful brands.

Core Competencies

- Brand & Visual Identity: Brand Development, Visual Systems, Brand Consistency
- Creative Design: Concept Development, Art Direction, Visual Storytelling
- Design & Production: Adobe Illustrator, Adobe Photoshop, Adobe InDesign, Microsoft PowerPoint
- Digital & Print Media: Social Media Campaigns, Editorial Design, Print Production
- Marketing & Communication: Marketing Strategy, Audience Engagement, Visual Communication

Professional Experience

Graphic Designer | Soom Line — Saudi Arabia
Client: Saudi Ministry of Industry and Mineral Resources
June 2025 – Present

- Develop and execute creative concepts and visual communication materials aligned with project objectives and brand guidelines.
- Create four comprehensive visual identities from concept to final execution for projects affiliated with the Ministry.
- Design approximately 2–5 visual assets daily, alongside four reports and booklets monthly, supporting ongoing communication and publication needs.
- Develop reusable design templates across multiple formats to maintain visual consistency in external communications and publications.
- Produce presentations, infographics, social media campaigns, reports, booklets, and print materials for diverse communication needs.
- Review design deliverables for visual quality and brand consistency, coordinating revisions with internal teams and client stakeholders.

Creative & Marketing Team Lead | Jelly Node — Palestine
February 2026 – Present | Part-time

- Lead art direction for creative projects, translating marketing briefs into compelling visual concepts aligned with client objectives.
- Redesigned the company’s visual identity to strengthen brand consistency across its communications.
- Developed standardized templates for formal communications with external clients, ensuring a consistent and professional brand presentation.
- Direct and review creative deliverables, providing visual guidance and quality control for a team of 1–2 designers.
- Contribute to marketing campaign planning and content development for multiple clients across different brands.
- Monitor social media performance metrics to assess content engagement and inform ongoing marketing efforts.

Freelance Graphic Designer
April 2017 – Present

- Develop visual identities and logos from concept to final execution, creating cohesive visual solutions tailored to client requirements.
- Design social media content and campaigns, print materials, brochures, catalogs, reports, infographics, and presentations.
- Translate client ideas and project requirements into creative visual concepts and effective design solutions.
- Manage the full design process, from initial client communication and requirements gathering to final delivery.
- Present creative concepts, review feedback, and refine designs to meet client expectations and project objectives.
- Collaborate with companies, individuals, and marketing agencies across various industries, including real estate, restaurants, woodworking and carpentry, automotive dealerships, and educational academies.

Earlier Experience

Account Support Agent | Jawwal — Palestinian Telecommunications Company
April 2023 – January 2025

- Resolved business customers' issues and provided effective solutions to support customer satisfaction and service quality.
- Explained service offerings and promotions, recommending relevant solutions based on business customers' needs.
- Analyzed recurring customer inquiries and complaints to identify service-related issues and support improvements in the customer experience.
- Used CRM systems and Microsoft Excel to manage customer information and support daily operations.

Sales Representative | Paltel — Palestinian Telecommunications Provider
September 2022 – February 2023

- Acquired new customers through field visits and in-branch sales activities.
- Presented telecommunications and internet services, explaining available offers and packages to potential customers.
- Identified customer needs and recommended suitable services based on their requirements.
- Worked toward achieving sales targets while supporting customer acquisition and service promotion.
